Millikins Win Christmas Home Decorating Contest

Jack and Nita Millikin's home on Millikin Road won the 1989 Christmas Home Decorating Contest sponsored by the Grayling Promotional Association.

Dennis and Kimberly Kuhn of Shaw Park Road won second place. Bill and Troy Haag of Goose Creek Road won third place.

The Millikins won \$50 for first place, the Kuhns won \$35, and the Haags won \$25. The three winners received framed notecards depicting area landmarks.

Weyerhaeuser Attains Safety Goals Here

On December 1, 1989, the Weyerhaeuser mill in Grayling celebrated 500 days without a lost work day due to an industrial accident. The 500 days represents 867,000 man-hours.

General manager Rodger Anger said, "This is a significant accomplishment and we are very proud of our employees and this record. We plan to continue our improvement of our safety record in 1990. When you see a Weyerhaeuser member around town with a grey jacket that has a '500' on the front, you will now know what the 500 represents."

1990 Yearbooks On Sale at GHS

The Grayling High School 1990 SAGA Yearbook is now on sale. Students can purchase their own yearbooks in Room 13 at GHS or parents can buy gift certificates for their children by writing Nicki Trenary, 1990 SAGA Promotions Manager, Grayling High School, Grayling, MI, 49738.

The 1990 SAGA is presently selling for \$18, the same price as last year's book, although the coming year's will include more pages.

After February 14, the price of the 1990 SAGA will go up to \$20 and only a limited number of yearbooks will be available. So people are encouraged to buy their yearbooks now.

Another Elementary School in Grayling's Future?

The Crawford AuSable School Board took action at their December 18th board meeting to hire the construction management firm of Elzinga & Volkers of Houghton Lake to prepare cost estimates and develop preliminary specifications for the possible construction of a new elementary school. The board also approved requesting the services of the Michigan Department of Education Project Outreach to conduct a survey of community attitudes toward both the district's construction and educational programming needs. This survey will be conducted in March of 1990.

The school board acted following receipt of the preliminary recommendations from the district's Infrastructure Committee. This committee has been studying the structural needs of the four schools in the district for the past two months.

"The school board has been aware of the space problems at the Grayling Elementary School for a long time," said Superintendent Kent Reynolds. "They made it clear when the middle school bond issue was being discussed that moving the fifth grade to the Grayling Middle School was only a temporary solution to the school district's overcrowded situation." He said the Grayling Middle has a capacity of 600 students, and by the fall of 1992, the middle school will begin to bulge at the seams with nearly 700 students.

"Some or all of the fifth grade classrooms will have to be moved out of the middle school at that time," stated Reynolds.

MORE CLASSROOMS NEEDED

The Grayling Elementary is already having to bus students to Frederic because of the lack of classrooms and Reynolds estimates that by the fall of 1992, the district will need 15 additional elementary classrooms just to handle current enrollment trends. In addition to these classroom needs, the Grayling Elementary School lacks office space for vital services such as the social service worker, physical education teacher, school counselor and school psychologist and small classrooms for speech therapy and the gifted and talented program. The teachers lunch room/lounge and work room are inadequate for current staff numbers.

For these reasons, the board of education asked that the Infrastructure Committee be formed. Last Monday the committee made six recommendations to the board of education. Following each recommendation is a brief summary explaining why and how each recommendation was reached.

1. The committee recommended that an additional elementary school be constructed instead of adding on to either the Grayling or Frederic Elementary schools.

The Grayling Elementary School, with over 600 students, is nearly twice the size of the average elementary school in the state and is one of the state's largest elementary schools. Its auxiliary areas (gym, library, etc.) are at or over capacity with the current enrollment and would have to be duplicated if classrooms were added. The heating system will not support additional classrooms and would also need to be duplicated if classrooms were added. Current personnel such as administration, secretary and custodians could not service additional space

and students. It was the opinion of the committee that it would be as expensive to add on as to build an additional school.

"The Frederic Elementary School is too far from the county's population center and would result in more unpopular busing," said Reynolds.

2. The committee recommended that the new elementary school be constructed at the Grayling Elementary School/football field site and that a new football field and track complex

Weyerhaeuser Building \$60 Million Plant is Top Story of Decade

Weyerhaeuser building a \$60 million plant here was the top news story of the decade for Crawford County. The Structurwood plant located in Beaver Creek Township shipped its first load in September of 1982.

Controversy over the use of Camp Grayling reached the courtroom in 1988. The AuSable Manistee Action Council tried to restrict the use of the camp to Michigan National Guards. A committee established by Governor Blanchard helped reach compromises between the military and civilians complaining about the training at the camp.

The third top story of the decade was a combination of new construction at Camp Grayling. A \$920,000 armory was dedicated in May, 1982. Also in 1982, construction was started on a \$2.2 million ammunition supply center. In 1983, construction started on a \$1.8 million supply center building. In 1988, construction started for a new \$6.5 million MATES complex along North Down River Road.

The fourth top story of the decade was a legal battle over no-kill rules on the "Holy Water" stretch of the AuSable. After an injunction, the no-kill rules were finally put into effect on the mainstream.

Large cuts in the school district in September, 1981, was the fifth most important story of the decade. Thirty six employees were laid off,

libraries were closed, and many programs were cut. The Crawford AuSable School District turned things around a few years later as the Grayling Middle School was renovated and the Grayling High School was named an exemplary high school in the state.

The sixth top story of the decade was the controversy in 1989 concerning Georgia Pacific's plan to build a formaldehyde plant. The AuSable Conservation Trust fought to stop construction of the plant.

The seventh top story was the reopening of the Grayling Fish Hatchery as a tourist attraction. Local citizens took the closed DNR fish hatchery and renovated it.

A lawsuit to halt construction of the Kmart store in Grayling was the eighth top news story of the decade. The store eventually opened in Sept. of 1984.

Construction of an \$11 million Shell gas and oil central production facility in Frederic Township in 1983 was the ninth top story of the decade. Later in the decade, production was reduced and halted at the facility.

The tenth top story of the decade in Crawford County was the Fred Bear Museum leaving the area. The museum was the last part of the Fred Bear Archery Company left in Grayling. Its departure marked the end of the Fred Bear era in Grayling.

It's Here
A New Year is cause for celebration and cheer, and our message to all of peace and prosperity in the new decade.

GHS LIBRARY — Dena Kolb, wife of GHS's first librarian, Charles Kolb, and high school principal Carl Naghtin stand in front of the plaque which was recently hung on the library wall in Chuck's honor. The GHS Library has been officially named the Charles L. Kolb Instructional Materials Center in his memory.

GHS Library Dedicated to Charles Kolb

The Grayling High School Library was officially named the Charles L. Kolb Instructional Materials Center in a recent ceremony held in the

library. On November 29, the GHS staff and representatives from the student body and community gathered as Principal Carl

Naghtin presented a plaque, which will hang permanently on the wall of the IMC. Dena Kolb accepted the plaque in honor of her husband, the first

librarian of the high school, who died last year after a long illness.

The plaque reads, "Charles L. Kolb/ Mar. 4, 1932-Sept. 1, 1988/ In Memory Of/ His Dedication to Excellence/ And His Commitment To The/ Diversified Education of Youth."

The idea for naming the library in his memory came from fellow staff members. GHS instructor Rebecca Brown chaired the

committee subsequently formed to determine the exact method for honoring Chuck's contributions to GHS.

Friend and colleague Lacey Stephan, of the GHS Chemistry Department, spoke at the ceremony of Chuck's willingness to "go the extra mile."

Added Lacey, "He never gave up his love for young people. I don't remember him ever saying a cross word. He was a caring person."

... about your Social Security

The 1990 basic Medicare Part B premium was recently announced at \$33.90 per month. However, as a result of Congress repealing the Catastrophic Health Insurance law, the basic premium for most Medicare beneficiaries will be \$28.60 in 1990. (Part of the scheduled premium increase was to finance the Medicare Catastrophic provisions).

Since the Social Security checks for the first several months of 1990 were already set up for withholding

\$33.90 from most Medicare beneficiaries, the incorrect premium will be withheld possibly until the April check, due on May 3. That means beneficiaries who have the incorrect amount of premium withheld will be due a refund.

Social Security is expected to begin refunding the excess premiums in Feb. This will be done automatically. Beneficiaries will not need to apply for the refund.

Medicare beneficiar-

ies who have questions about how repeal of the Catastrophic Health Insurance law affects their Medicare coverage and benefits, may call Medicare toll-free at 800-888-1998.

A new Medicare Handbook explaining the changes, is expected to be issued by April, and will be mailed to all Medicare beneficiar-

ies. People who have questions about their Social Security benefits, or the Medicare premium deduction, may contact Social Security toll-free at 800-234-SSA.

All I Ever Really Needed To Know I Learned In Kindergarten

Most of what I really need to know about how to live, and what to do, and how to be, I learned in Kindergarten. Wisdom was not at the top of the graduate school mountain, but there in the sand box at nursery school. There are the things I learned: share everything, play fair, don't hit people. Put things back where you found them. Clean up your own mess. Don't take things that aren't yours. Say your sorry when you hurt somebody. Wash your hands before you eat. Flush. Warm cookies and cold milk are good for you. Live a balanced life. Learn some and think some and draw and paint and sing and dance and play and work every day some.

Take a nap every afternoon. When you go out into the world, watch for traffic, hold hands, and stick together. Be aware of wonder. Remember the little seed in the

plastic cup. The roots go down and the plant goes up and nobody really knows how or why, but we are all like that.

Gold fish and hamsters and white mice and even the little seed in the plastic cup -- they all die. So do we. And then remember the book about Dick and Jane and the first word you learned, the biggest word or all: LOOK. Everything you need to know is in there somewhere. The Golden Rule and love and basic sanitation, ecology and politics and sane living.

Think of what a bet-

ter world it would be if we all -- The Whole World -- had cookies and milk about 3 o'clock every afternoon and then lay down with our blankets for a nap. Or if we had a basic policy in our nation and other nations to always put things back where we found them and clean up our own messes.

And it is still true, no matter how old you are, when you go out in the world it is best to hold hands and stick together.

Let's Talk About It

By Joe Murphy

The 1980's will soon go into the history books and we start a new decade. I am hopeful that the 1990's will be the most important ten years in the history of man. World peace now seems to be a real possibility. Man is beginning to realize there would be no winners in a war using the terrible weapons of today. It would be like two men standing toe to toe with loaded shotguns on each other's chests, no matter who pulls the trigger first, reflex action would fire the gun killing the other.

The basic failure of the communist system of government to provide for the needs of their own people is a known fact today. Every where men are becoming aware that they have a God given right to liberty and freedom. When the oppressed have no hope, they can cope with oppression. But once hope for freedom is born it will not die and the days of oppressor are numbered. I also hope the 1990's will bring not only peace but understanding and prosperity to all nations, if that can be attained in this decade, think of all that the twenty-first century could promise. Let's all pray that the world is destined to enjoy peace for the first time in its history and war is a thing of the past.

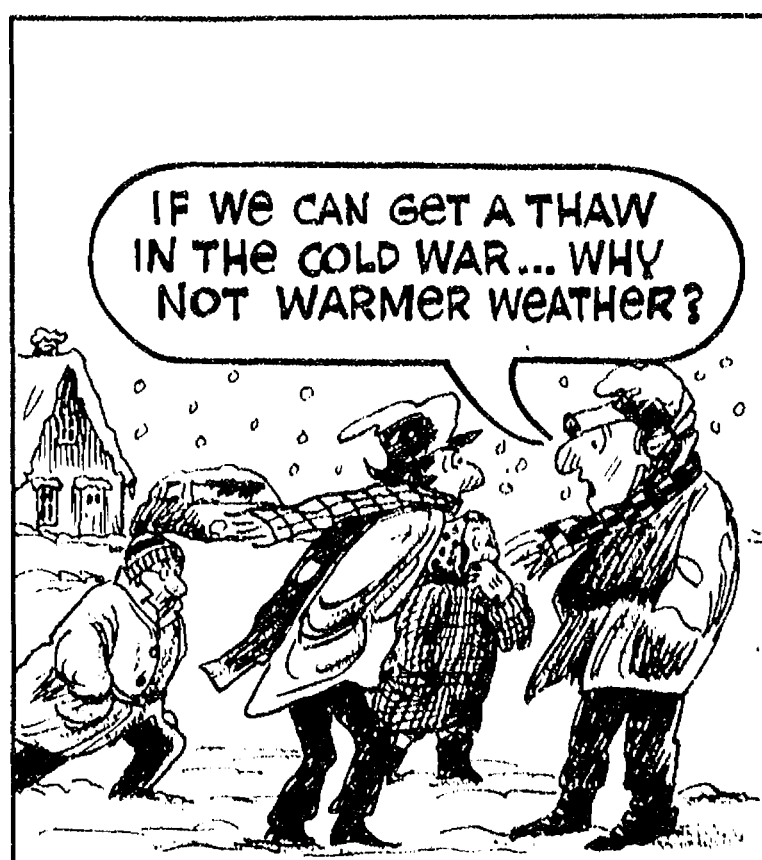

I goofed again when I wrote that the old Burton Hotel was where the Saw Mill bar is now. It was where the Avalanche and Mary's Bookstore are located. Thanks to the help of Earl Nelson and others I

will try to do that side of Michigan Avenue.

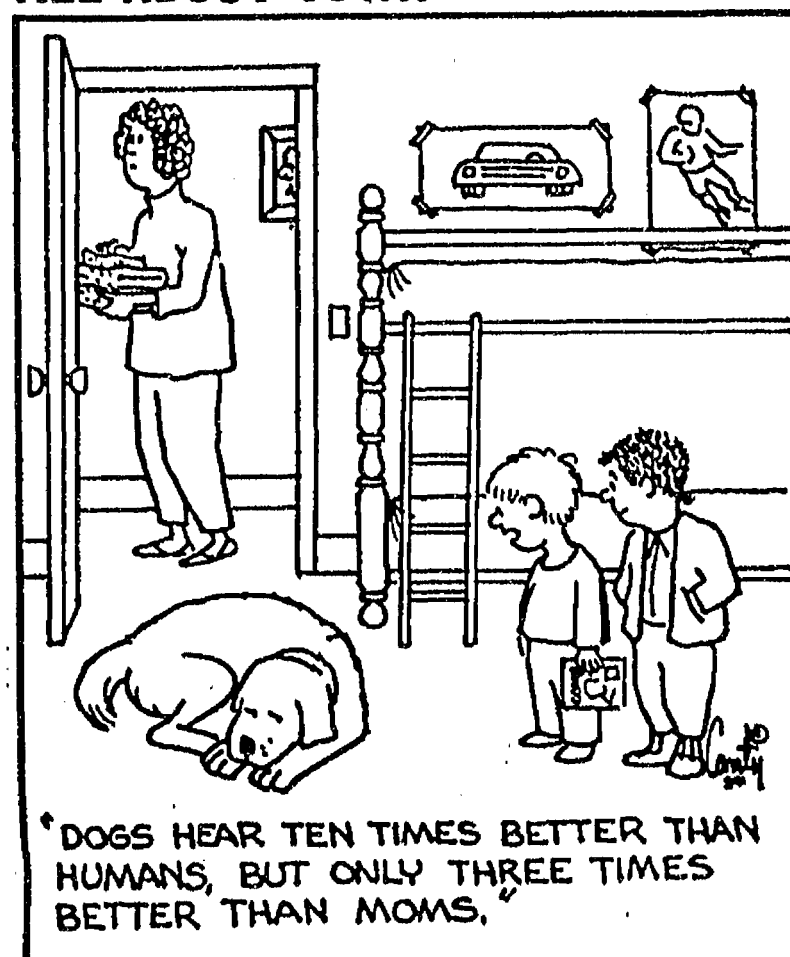

Beginning at the railroad tracks we find the Burton Hotel and Restaurant where Earl could get a half of a pie to eat while he waited for the train to drop off a bundle of Bay City Times newspapers for him to deliver to his customers. That half a pie, he preferred banana or coconut cream, cost him the staggering sum of twenty-five cents. The papers in a bag slung over his shoulder, he started up main street. Next to Burton's was the Sorenson Barber shop, Fisher's Hotel and Saloon was next. Now came Sorenson's Furniture Store, Herluf Sorenson's Ice Cream Parlor and Sporting Goods was next door. Then came the Sailing-Hanson Offices, next the Hanson Company Store, a saloon that a frenchman owned was next then came Lewis Drug Store. Crossing Old US 27 we find Stingy Chris's saloon, Peterson's Jewelry Store and the Avalanche building. Conines Grocery, then crossing the street we find Milke's meat market, the McCullough and Goodre shoe repair shop next door is Brennan's Clothing Store. He stops to look at show bills at George Olsen's Rialto movie theatre, George Sorenson's Undertaking Parlor completes his walk past the business places on the south side of Michigan Avenue.

I want to wish everyone a Happy and Prosperous New Year. Pray For Peace.

Northern Views

By Jon Thompson
Avalanche Editor

You wake up in the middle of a moon-lit night and you know you're part of something very wrong. Terribly wrong. And the realization hits you with an impact that doesn't go away.

How are people going to view us one thousand years from now? As the most selfish, wasteful group of humans to ever live?

Why shouldn't they? Look at all the selfishness. Americans are 5 percent of the world's population yet we are using up about 25 percent of the world's oil, natural gas, and precious metals.

We're filling the country with common trash and toxic waste that could harm many generations to come.

We've ruined great rivers, beautiful lakes, and have a great start to ruining our oceans.

We're losing topsoil and farmland at a rate unprecedented in the history of mankind.

We're destroying woods and wild places. But we do have an abundance of chemicals that can kill plants, animals, and humans. We've also got more nuclear waste than we know what to do with.

"This country is the most wasteful on the face of the earth," says Michael Deland, from the Council on Environmental Quality.

Yet, we Americans race merrily along figuring technology will save our grandchildren. On a moonlit night, I'm not so sure technology can save them from all we've done.

We could be mortgaging the future of the human race for a thousand years, or perhaps longer.

What can we do about a selfish, greedy country? Just remember how you felt in the dead of the night when there was no hiding from the

truth. And the next day, try to change your part of the world.

There are some people out there already taking good care of the planet. Join them and try to persuade others. Most people aren't selfish. They are decent people who will change when given good reasons and the opportunity.

What can you do?

1. Conserve gasoline. Plan your business to avoid extra trips. Drive slower, walk, join car pools. Buy fuel-efficient cars. If every U.S. car was more efficient by only one more mile a gallon, they could shut down all drilling in Alaska for one year.

2. Recycle and repair, rather than dispose and replace.

3. Avoid polluting. Shun styrofoam and aerosols with chlorofluorocarbons. Don't buy chemicals you're not sure how to use. Ask for paper bags or biodegradable plastic bags. Dispose of oil and paints properly.

4. Use energy-efficient appliances. Conserve heating fuel and electricity.

Will future generations look back and laugh at us, like we were just another Roman empire, partying excessively while our world crumbled around us?

Sorry, it's a little more serious than that. Look at what we're doing to the earth. Future generations are going to look back at us with disgust.

Future generations will have the same power as us to alter the earth but they'll take better care of their world. They'll show concern for future generations.

Isn't that the right way to live? In the dead of the night, the answer seems obvious.

Almanac

By Richard Milliman

Peace will bring problems

PEACE SEEMS TO BE breaking out all over the world, and one big question that emerges is whether we can handle it here in the United States.

Our country has been technically at peace for quite a while now -- all the way back to 1945, if you don't count Korea and Vietnam, which were only sort-of war efforts.

But we have been nose-to-nose in non-combat challenge with the Soviet Union and its satellites for over 40 years or so. Our opposing ideologies -- communism versus democracy -- highlight something called "The Cold War." Essentially, this meant the USSR didn't trust the USA and the USA didn't trust the USSR either.

So, while we weren't technically enemies, in the wartime sense, waging the Cold War allowed both nations to earmark billions and billions of dollars and rubles for warlike spending, maintaining and enlarging armies and navies, developing and building more and more sophisticated and expensive weaponry, delving ever more deeply into the potential of nuclear and chemical devices to kill more and more people with less and less risk.

BUT COMMUNISM SEEMS to be slipping. The events in Eastern Europe are mind-boggling. Country after country has been casting off communism. What President Reagan called "The Evil Empire" has been crumbling.

Soviet Leader Mikhail Gorbachev calls on the Pope, addresses him as "Holy Father", and invites him to Russia. Even another barrier falls.

Mr. Gorbachev and President George Bush put up their feet at the seaside summit at Malta, and talk about laying down arms. There is not unanimity on everything, but there seems to be enough accord between the two world super-powers to encourage thoughts of friendship and harmony.

In a nutshell, peace is breaking out all over. Isn't peace grand?

WHY THIS IS HAPPENING is arguable. Perhaps it is ideological in nature ... that those who have lived under communism recognize at long last that it won't work and they want something different.

Perhaps it is rooted in economics ... that the Soviet leaders have sought to soften world tensions because their breadbaskets are near empty, and cannot be refilled while 15 percent of their gross national product goes for military purposes.

Perhaps it is strictly historical, reflecting yet another of the inevitable cycles of change with which history abounds.

Regardless of why it is happening, the Cold War seems to be near an end. The USA, too, now can reorder its priorities. It can stop matching the Soviets weapon for weapon and soldier for soldier and dollar for dollar.

BUT HERE COMES THE RUB. How are we going to do it? We now send about \$800 billion a year to the Pentagon. In fact, the USA has spent close to \$10.4 trillion (That's \$10,400,000,000,000) for defense in the last 40 years as a Cold War deterrent, according to Columnist George Will.

Just think of where our economy could have been without all those dollars going for defense! What would today's American society be like? Would we have poverty? Homelessness? Educational needs? Hunger? Rampant drugs? Crumbling highways and bridges? Huge National debt?

So now, how do we reduce our military spending and what do we do with the money we do not spend on the military? Defense Secretary Dick Cheney said he wants \$150-180 billion in lower defense spending over the next three years, and military types are scurrying to come up with recommendations.

A new phrase we will hear a lot is "threat assessment". That appears to mean rating where military attention is still required.

TWO BASIC QUESTIONS are involved here:

-- Where do we cut military spending? As lawmakers approach this quandary, the obvious answer is "In somebody else's back yard". For example, Michigan Sen. Carl Levin already has promised to protect tank production in Michigan. Lawmakers with military bases in their areas will want to reduce weapon development and production; those with research and production will go after reduced manpower. The political skirmishing will be intense.

-- And what do we do with those new-found unspent military dollars? The spenders are already lining up in favor of education, housing, welfare, child care, even debt reduction ... the list is endless. And keep in mind that 1990 is an election year for Congress; the rhetoric will sizzle.

Ah, peace. It will be wonderful. But nobody ever said it would be easy.

Elementary School

Continued from page 1

be constructed at the high school site.

The school district owns adequate space for an additional elementary school at the Grayling Elementary/football site. Two elementary schools at the same site would conserve transportation costs and reduce student time on buses as all buses and routes carry K-12 students and must stop at all buildings. The only large population center outside of the city is the Karen Woods, Sherwood Forest, Lake Margrethe area. The district does not own property in that area and would have to purchase land should a site in that area be chosen. Any site away from the Grayling Elementary School would increase transportation costs.

COULD SAVE TRAFFIC PROBLEMS

The serious traffic problems at the Grayling Elementary School could be solved when the second school is constructed by paving a bus traffic loop from Plum Street between the two elementaries. This would eliminate all bus traffic from Conine Drive between the hospital and the Grayling Elementary school resulting in a much safer situation for auto and pedestrian traffic.

The second elementary school could be attached to the Grayling Elementary School by an enclosed walkway facilitating movement of shared personnel between the buildings. Convenient sharing of personnel results in operational cost savings.

MOVE FOOTBALL FIELD?

The committee cited several drawbacks to the current football field. There is not adequate space for a modern track and even if space was available, it is not easily accessible from the high school building. The location has been a factor in small turnouts for track and eventually for the dropping of track as a school sport. Parking is inadequate. Seating is inadequate and other improvements are needed including fencing, rest rooms, and equipment storage. Construction of a new football field/track complex at the high school site would free space for an elementary school, would provide a useful facility for the high school and would provide a better and safer facility for spectators due to better parking and seating.

3. The new elementary school should be designed for grades K-2 including preschool and developmental programs and that the Grayling Elementary be redesigned for grades 3-5.

4. The committee is at the point where space requirements and costs need to be determined. The committee recommended that the firm of Elzinga & Volkers, Inc., a construction management firm from Houghton Lake, be engaged to work with the committee in completing recommendations and developing a cost analysis.

YEAR ROUND OPTION

5. The committee has requested further research be conducted regarding the concept of year round school. Research is to include an analysis of cost increases or savings, an analysis of positive and negative factors and an analysis of the number of years such a solution would address the district's space problems.

No districts in Michigan are currently operating year round school. Three districts operated year round school in the 1970's. The concept was abandoned due to excess heat in the summer, and difficulty in maintaining buildings as they are always in use and in conflict with high school activities. Under the year round school concept, 25 percent of the students are always on vacation increasing the schools capacity by the same number. The elementary classroom needs in the Crawford AuSable School District already exceed 25 percent.

Districts utilizing the year round school concept found that it worked better at the elementary level than at the secondary level.

6. The committee recommended that the Michigan Department of Education Project Outreach be engaged to conduct a survey to determine attitudes toward construction issues including location, configuration and other construction improvements and repairs to existing facilities.

OVERCROWDED SITUATION

Reynolds likened the overcrowded situation at the Grayling Elementary School to having the whole family together for Christmas when the wind chill factor is a -0 so all the children have to stay indoors.

"That is what happens in a building that has too many people," he said. "We keep bumping into one another, the ability to concentrate is diminished and nerves become frayed."

Infrastructure Committee members include Tom Coors, Bill Joseph, Rev. Bob Gordon, John Hartman, Kris Newman, Carol Ramaswamy, Tim Swope, Pat Nunn, Paul Lerg, Kent Reynolds, Richard Albee, Chris Dunkley, Steve Lanseth, Rodney Lobsinger, Jerry Morford and Irene Pettyjohn. Questions and concerns can be addressed to any committee member or board of education member.

Grayling Thumps Charlevoix 77 - 58, Nips Petoskey 75 - 73

Shane Fraser's free throw shooting and playmaking helped Grayling beat Petoskey 75-73 in overtime at the GHS gym Friday, Dec. 22.

Fraser hit two free throws in the last minute of regulation time to tie the ballgame at 68-68. In the overtime, Fraser hit Kirk Annis with a nice pass and Annis scored the first basket of the extra session. Matt Branch connected for a three point shot for Grayling to put the Vikings ahead for good. Fraser's two free throws in a one-and-one situation with 12 seconds left iced the victory. Petoskey hit a three point shot with

time running out to put the final score at 75-73.

Fraser led the team with 24 against Petoskey. Jim Abney had 21 points, 13 rebounds, 4 steals, and 4 blocked shots. Branch had 10 points and 10 rebounds. Annis had 6 points and 11 rebounds.

Tony Doremire and Chad Bonamie each scored 6 points. Ron Doe scored 3. Petoskey had a first quarter lead of 18-15 but Grayling went ahead 38-30 at half and took a 10 point lead, 54-44, into the four quarter. Petoskey came back by hitting three point shots.

Coach Tom Mills said Fraser played well the entire game

and Annis did what he had to do to win, even playing hurt in the fourth quarter.

In a big 77-58 win over Charlevoix on Tuesday, Dec. 19, Jim Abney dominated the game with 29 points, 18 rebounds, 5 blocked shots, and 4 steals. Abney shot 14 of 18 from the floor to lead Grayling to its first win over Charlevoix in 8 years.

Abney's high percentage shooting led the team to a sparkling 64 percent shooting percentage. Grayling shot 15 of 23 for the first half while Charlevoix was shooting 4 of 22.

"We made the same 8-foot shots we were missing earlier in the season," said Mills.

Mills said Abney played outstanding

and the entire team had an all-around good ballgame. The Vikings played good defense and ran their offense well.

Against Charlevoix Fraser and Branch had 9 points each. Annis and Doremire 8 points each. Scot Nicholas had 6 points, Bonamie 4, Doe 3, and Jim Smith 1.

The two wins put Grayling in contention in the league with a 2-1 mark. Cheboygan, who beat Grayling in Cheboygan by 7 points, is 3-0. Grayling, Petoskey and Charlevoix are 2-1. Gaylord and St. Ignace are 1-2. Rogers City and Sault Ste. Marie are both 0-3.

On Friday, Jan. 5, Grayling travels to Rogers City.

Freshmen Win In Last Second

With only one second remaining in the game Matt Gingerich rebounded after Grayling missed a free throw and made the basket that broke the 47-47 tie and helped the Freshman team beat Kalkaska, 49-47.

Kalkaska was leading by one point with 30 seconds left to play. Jason Neeley was fouled and made the free throw that tied the game. With two seconds to play Grayling was fouled again. The free throw was missed, but the rebound shot hit its mark and put Grayling over the top.

"It was an exciting game for us to win," said Coach Bill Klinger.

Matt Gingerich was high scorer for the game with 14 points and 12 rebounds.

Other points were made by: Jason Neeley 13 with 9 rebounds, Andy Lochner 9, Mike Spencer 4, Mitch McMillan, Rick Leyland, Sean Mirate and Matt Cragg had 2 points each, and Mark Kraus 1 with 10 rebounds.

"The Freshman team showed character after losing the lead

and then coming back and winning the game," said Klinger.

The Freshman lost a close game to Cheboygan on Wednesday, December 13, 58-58.

Klinger said his team played right on top of their game.

"They hustled, found the open man, and played unselfish basketball," Klinger stated.

Matt Gingerich led his team in scoring with 15 points and 8 rebounds. Andy Lochner followed with 14, Jason Neeley 11 with 7 rebounds, Matt Branch 10, Mark Kraus 4 with 5 rebounds and Mike Spencer and Mitch McMillan with 2 points each.

"We gave Cheboygan a run for their money," said Klinger.

The Freshman travel to Petoskey this Thursday. Game time is 7 p.m. Their next home game will be January 4 with Roscommon at 6:30 p.m. at the Grayling High School.

GOING TO BASKET—Tony Doremire (#13) goes hard to the basket and scores for Grayling.

SPORTS FANS!

I Bet You Didn't Know

Brought To You By Brad Scheer

Did you know there was once a major college football bowl game which the 2 opposing coaches were brothers... It was the 19 Gator Bowl... Georgia coached by Vince Dooley, faced North Carolina coached by Vince Dooley's brother, Bill... Georgia won, 7-8.

Here's a surprising fact... Although there are many bowl games these days, it took football people an amazingly long time to stage more than one game... The first Rose Bowl game was played in 1902 but, oddly enough, it was then 83 years, in 1985, until the next major bowl—the Orange and Sugar Bowls—were started.

Here's an amazing record... There was once a man in the National Football League who played EVERY game for his team for 20 YEARS—and was never injured, despite playing regularly as a defensive end... The man who set that record was Jim Marshall who played with Minnesota and Cleveland in the NFL from 1960 till 1980—and never missed a game in all that time!

Merry Christmas and Happy New Year from all of us at Scheer Motors in Grayling!

Bits of Talk

By Fay Bovee (348-7017)

Peg and Jim Peterson of Hartford, Michigan, and Janet LaGrow, of Lansing, visited their mother, Mrs. Wilma LaGrow, last weekend. All of them were in Indian River on Saturday, December 16, 1989, for the baptism of 10-month old twins, Megan and William James Rigling. They are the children of Kim and Jim Rigling of Salt Lake City, Utah, and the grandchildren of Cora and Jim Peterson of Indian River.

Patricia Kequom Heron, daughter of M. and Mrs. Frank Kequom of Frederic, recently returned from Phoenix, Arizona, where she completed a Financial Management Certification Program, put on by the

National American Indian Housing Council of Washington, D.C.

Patty is currently in her 3rd year as the Executive Director of the Saginaw Chippewa Housing Authority in Mt. Pleasant, Michigan.

She currently oversees 54 H.U.D. Housing units under management, 20 units under renovation and 23 additional units under development. She also manages the tribe's 20 lot Trailer Park and oversees operation of the Saginaw Chippewa Utility Authority.

Patty is a 1975 graduate of Grayling High School, and has attended classes at Lake Superior State College and Central Michigan University.

The Bible Speaks

From Calvary Baptist Church

**The Gospel of John
Part #108****Behold Your King**

Pilate faced the dilemma of the politician; whether to stand for truth, or follow the people even when they are wrong. "And from thenceforth Pilate sought to release him; but the Jews cried out, saying, If thou let this man go, thou art not Caesar's friend: whosoever maketh himself a king speaketh against Caesar." (John 19:12). Pilate knew how jealous Tiberius was of his authority. He knew the Jewish leaders would attempt to ruin him politically if he defended Jesus. In reality, they were all fulfilling prophecy. "They gather themselves together against the soul of the righteous, and condemn the innocent

blood." (Psalms 94:21). Politicians who support abortion do the same thing today.

Pilate takes the coward's way out and passes sentence of death on Jesus Christ, but in doing so declares boldly the civil charges in the face of the Jews, "Behold your King!" Pilate would later write that truth on the cross for all to see. Pilate illustrated the Proverb, "The fear of man bringeth a snare: but who so putteth his trust in the Lord shall be safe." (Proverbs 29:25). Pilate had brought Jesus out to the raised platform of public judgment for final sentencing. (John 19:13). It was the sixth hour Roman time, or the first hour Oriental time when sentence was passed. (John 19:14).

(Romans started counting time at midnight like us, and the Jews from sunrise to sunset).

The final decision was confirmed by the Jews, "But they cried out, Away with him, crucify him. Pilate saith unto them, Shall I crucify your king? The chief priests answered, We have no king but Caesar." (John 19:15). "He came unto his own, and his own received him not." (John 1:11). They had just chosen Barabbas over Christ, and Barabbas was an insurrectionist against Caesar who was a guilty robber and murderer. Now they are claiming allegiance to Caesar in demanding the death of Christ.

Today, Christ is being crucified

publicly in "The Last Temptation of Christ." His flesh is beyond reach, so now it is His character. This film was produced by MCA, Music Corporation of America which was founded by Jules Stein, current chairman is Lew Wasserman, and the president of MCA is Sidney Sheinberg. Our column is usually pro-Israel and pro-Jewish, but we can also publicly tell the truth without being anti-semitic. Christ was and is sinless God!!

Who is king of your life today, Caesar or God. If we call Jesus Christ Lord, we should obey Him. As the apostle Peter said, "We ought to obey God rather than men." (Acts 5:29b). (Hear "The Bible Speaks" at 12:15 p.m. Tuesday on WQON 100 FM).

PRECIOUS TIME

Sunday
1 Timothy
1:1-17

When the old year ends, 365 days will have passed. As the new year begins, it will bring with it another measure of equal time... 365 days more. We begin to speak of the old year as "last year"; the new year as "this year."

Last year may have been a happy one or a sad one. Looking back, there may have been happy moments, ones of joy, shared with others—a birth, wedding, an anniversary.

During the past year some have experienced difficulties, pain and sorrow—a serious health breakdown, a betrayal of trust, a heart-breaking bereavement, a friend in trouble.

This year, shape the future by what you have learned from the past, its good along with its bad, live well and do better. Spend your time so that it blesses you and the others around you.

The time God has allotted us on this earth is indeed most precious.

GRAYLING TOWNSHIP BOARD

Regular Meeting
December 12, 1989

Members present: McNamara, Medler, O'Mara, Ashton, Stancil.

Members absent: None.

Guests: Gerald Worden, Barbara Clark, Art Nowicki.

Meeting called to order at 7:30 p.m.

Motion by O'Mara, support by Medler to approve minutes of November 14, 1989, as presented. All ayes. Motion carried.

Correspondence: (No action required).

Crawford AuSable School District November Board Minutes, City and Township Fire Department Report; November 1989, Camp Grayling Wastewater Treatment Permit.

BUSINESS:

Gerald Worden was present to request that the Township set up files containing deed restrictions of all platted subdivisions which would be referred to by the building department prior to the issuance of any permits. He stated that perhaps the Township should enforce deed restrictions.

The Supervisor agreed providing the building department with subdivision deed restrictions might help by providing additional information which could at times prevent an unintentional error in planning by a property owner. However, the enforcement of deed restrictions on plats have in the past been the responsibility of property owners within each subdivision. The question of enforcement by the Township will be researched.

Motion by McNamara, support by Ashton, to resolve to collect 1990 Summer Property Taxes for Crawford AuSable School District, C.O.R.R. Intermediate School District and Kirtland Community College and authorize Supervisor to negotiate collection fees for same. All ayes. Motion carried.

Motion by McNamara, support by Medler, that Grayling Township Offices be open on Good Friday until 12:00 noon. McNamara; aye, Medler; aye, O'Mara; aye, Ashton; nay, Stancil; nay. Motion carried.

Department reports on file: Supervisor, Building, C.C.T.A., GRA.

Motion by O'Mara, support by McNamara, to approve payment of bills on vouchers 11852-11854 and 11867 through 11911 in the amount of \$21,547.44. All ayes. Motion carried.

Motion to adjourn by O'Mara, support by Ashton. Motion carried.

Monica S. Ashton
Clerk

Doodles from the Tall Timber

I'm not certain that the time of day had anything to do with the simultaneous visit to the feeder by a Red Breasted and a White Breasted Nuthatch or not. Very seldom do you see both at the same time, and in the end it was the Red Breasted variety that stayed to feed, even tho it wasn't for long.

There are four members of the Nuthatch family. The Brown Headed and Pygmy are residents of the South and the far West respectively. The Breasted variety is common in the eastern United States and it does migrate to some degree. The pairs seem to remain together even in the winter. The White Breasted variety is more apt to visit the feeder than its Red Breasted cousin.

Not only does the Red Breasted have what one source refers to as pale, rusty underparts, but it is the only Nuthatch with a white stripe above and black stripe through the eye. They feed

mostly on the seeds of conifers and small over-wintering insects hidden in the crevices of the bark on trees. When conifer seeds are in short supply, they will accept suet, but they visit the feeder less frequently than its White Breasted cousin.

Both species prefer a cavity in a conifer, but only the Red Breasted does something unusual with the entrance hole. Perhaps in an attempt to discourage predators, the entrance is usually smeared with pitch, which gets on the birds' feathers, according to the Audubon Society Field Guide, it gives them a messy appearance.

Poet's Corner

Heart of the Holidays

My kitchen window holds the scene
Of tinselled lights in red and green.
The holidays, arrived again,
With jaded thoughts in minds of men.
Hurried faces turn away, and
Can't see need on Christmas Day.
Some hearts, like mine, concessions make,
While deep inside my spirit breaks.
Addicted, hungry, homeless tots
Now steal the joy I dearly sought.
Myself, I can't explain away
An aging face, in tears today.
But, like so many of the rest,
I buy my daughter all the best.
Then I sit gazing into space
That's filled with every lonely face.
I make the vows to do my best
To ease a hurt, to know I'm blessed
That hopeless feeling comes again
Where is the Peace in hearts of men?
I watch the lacy, snowflakes come,
Then hear a quiet, "Smile Mom."

Resource Review

By Bruce Patrick
Conservation Officer

One evening last month as I was watching the national news, I saw a major report on a group of anti-hunters disrupting hunting activities in a New England state. All these people did was walk along beside the hunters through the woods, talking softly to them. This in effect ruined the hunt by chasing away the deer. The state involved had a law prohibiting interference with the lawful hunt of another, as Michigan does, but it had recently been declared an unconstitutional restriction on the right to free speech. The anti-hunters were shown quietly presenting their arguments, while the hunters were shown drinking and having their comments "bleeped" out. There was no doubt as to the slant of the piece.

Now I see in the December 3rd issue of the "Detroit News and Free Press" another

lengthy news item on this tactic. Five states in the east have had interference in hunting activities, and Michigan is due for the same next year. Saying "we are fighting a war against the perverse minds who seek to maim and murder", organizers are planning to disrupt various kinds of hunting activity here. Duck hunters and deer hunters will probably be the primary targets, but anyone who hunts could be involved.

Hunters are often their own worst enemy. The best way to protect your sport is to maintain a high level of sportsmanship and integrity and to insist others do the same. If you should happen to become involved in one of these demonstrations, be as calm and polite as possible. Any violent or profane reaction will only hurt your sport.

Verse or Worse

By Joe Murphy

The 1990's

In the 1990's I'd like to see
An end to oppression and tyranny
A new era of peace and good will
A world where cannons are rusted and still

A world where man could live in peace
Where the threat of war at last would cease
A world where man would work to help a brother
Instead of killing one another

Where no child's needs would be unmet
Where greed and hatred we'd forget
Where no one went hungry to his bed
But had enough to share instead

A world that's free of drugs and crime
Instead of so many in prison, doing time
A world that follows the Golden Rule
Where respect for others would be what's cool

Where every man regardless of race or creed
Would have an equal chance to succeed
A world where all men lived in brotherhood
And worked together for the common good

Maybe my dream can come true
Just remember it must start with YOU!

A Look At Our Past

23 Years Ago December 22, 1966

Lora Gould, director of the Grayling Housing Commission, announced that the Public Housing Commission in Washington D.C. had approved an additional grant to Grayling of \$90,693 to cover the full bid cost for construction and equipping "AuSagra Acres", the city's public housing project for the elderly and for low rental units.

The summary of the water quality survey conducted by the Michigan Water Resources Commission in August, 1966, indicated that the primary waste water treatment facility in Grayling discharged sufficient nutrients (nitrogen and phosphorous) to stimulate weed growth in the AuSable. Large quantities of weeds are unsightly, interfere with swimming, boating and fishing. When the weeds die they add organic matter to the stream which can lower the count of dissolved oxygen in the stream as well as live weeds at night and on cloudy days when they

discharge carbon dioxide rather than oxygen.

City officials said they were aware of these circumstances and were considering the most economical and practical way to eliminate these wastes from the river system. Members of the Commission recommended that closer watch be made of private septic tank installations to prevent seepage into the river water.

Survey results were discussed during a hearing held by the Michigan Water Resources Commission in Traverse City on December 16 between commissioners and Grayling officials.

Cooperative Extension Natural Resource Agent Willard Bosserman wrote that some homes are unsafe because of faulty construction. One such case cited was when vent pipes of the plumbing are too small to function properly. Some, he pointed out, are vented into the attic which allows sewer gas to remain inside the house. Other problems include improperly insulated

chimneys and do-it-yourself electricians that do not follow building codes.

Yuletide vandals were active at the Jim Baker residence again this year. The Bakers decorated their two big evergreens on the hill, which they hadn't attempted for two years because of earlier vandalism. The first night the lights were on, eight of the bulbs were taken and the second night someone took one end of a string of lights and ran with it, snapping the wire right in half. Mr. and Mrs. Baker removed the remaining decorations and have given up on the project.

Stewart Hauxwell was surprised to see seven Canadian geese flying around his home and circling over town last week, and even more surprised to see them finally head north. Mrs. Alvin Moore also reported seeing a lone honker standing across the street from her home shortly afterwards. He finally flew away towards town. Bud Hunter reported seeing the lone goose too.

Sixteen young ladies of the high school with instruction from Mrs. Menno Corwin and with the course in Home Nursing completed receiving their certificates Wednesday, December 15th at a ceremony held in the Home Economics room at the school. Mrs. Emil Niederer, chairman of Home Nursing, presented the certificates and Mrs. Corwin the pins to the class. Mrs. Don Gothro teacher in Home Economics served an attractive lunch following the ceremony. The following received certificates: Rose Bishaw, Sally Brady, Beatrice Brown, Margaret Charron, Rose Mary LaBrash, Loraine Goodall, Janice Goshorn, Jacqueline Harwood, Maxine Kolka, Iris Madsen, Phyllis Newell, Caroline Nielson, Norma Parkinson, Jean Rasmussen, Barbara Simpson and Lois Winston.

There was a meeting of the Youth Guidance

organization Dec. 15th at the Court House when the chairmen of the several committees made reports. Indications are that plans are going forward in a most satisfactory manner. There is to be a boys athletic program organized to meet on Monday nights, and one for girls to meet on Tuesday nights. On Wednesday there will be combined groups of boys and girls. Volunteers to instruct in ballroom dancing are requested. Mr. Stripe and Mr. Kumpula are starting a "hobby" club and there seems to be a lot of enthusiasm for it. An ice skating rink is being constructed near the city disposal plant. This is to be large enough to care for all who may care to enjoy this fine pastime. Mrs. Joseph is organizing a welfare committee which promises to be a very helpful organization.

The annual Christmas party for the employees of Mercy Hospital was held Sunday, December 19th at the Nurses Home. A Christmas program by the younger members

of St. Mary's parish was one of the most enjoyable treats of the evening. The program opened with two solos sung by Miss Greta Rasmussen. "The Night Before Christmas" was presented by Edwin Pratt. Duets sung by Misses Jean Rasmussen and Sally Brady, a poem by Patrick Manion, duets sung by Misses Jean Lovely and Sally Bishaw. Mrs. Emil Niederer as a guest violinist played a few selections during the luncheon. Miss Mary Noa in charge of the program accompanied at the piano throughout the evening.

Mrs. Frank DeWitt has had word from her husband that he is stationed somewhere in England.

Word has been received from Corporal Bernard Feldhauser that he has been promoted to the rank of sergeant. He is the son of Mr. and Mrs. Robert Feldhauser of Maple Forest and is at present stationed at an Army Air Base at Albuquerque, N.M.

Corporal Harold Jehn, accompanied by Mrs. Jehn, left Sunday for Camp Gordon, GA.,

the former returning to his army duties after a furlough spent in Grayling. Mrs. Jehn expects to remain in the south for a couple of months so as to be near her husband.

The following program will be given in the assembly room Wednesday: Song, school, "Silent Night", recitation, Ruth Taylor; Duet, Miss Boody and Helen Parr; Violin solo, Herman Hanson; song, 4th grade boys; recitation, Helen Ziebell; piano duet, Ruth McCullough, Charlotte Flagg; song, school, "Hark the Herald Angels Sing".

The funeral of Major Edward E. Hartwick will be held Thursday in Detroit. Major Hartwick died in service in France during the early part of the war. It is requested that no flowers be sent.

Oscar Olson, who makes his home with Guy G. Pringle, left last night to spend the holiday vacation visiting his father, Lars P. Olson and brother, Paul Olson in

Detroit. Mrs. Anna Frederickson left last week for her home in Manistee, after spending several months at the home of her daughter Mrs. Arnold Lauridsen.

Miss Kathryn Clark expects to accompany Miss Hazel Abbott to her home in Ludington to be her guest over Christmas. Misses Helen Sherman and Hazel Smith left yesterday for Gaylord to spend Christmas with Miss Alberta Scriver.

James Reynolds Millwright, had two toes of his left foot broken Saturday afternoon when a large pulley fell upon his foot, while at work at the Kerry & Hanson flooring mill. He will be laid up for some time.

Mrs. Willard Campbell arrived Monday afternoon from Mt. Pleasant to spend the holidays with her parents, Mr. and Mrs. Fred Hanson. Mr. Campbell will arrive later.

Mrs. John Pettit and little son, John Jr. left Monday for Detroit to be gone over Christmas.
